Platform Engineer | Cloud Computing | Site Reliability Engineer | Infrastructure Automation  
Germany

## Summary

I am a versatile DevOps Engineer with solid experience in Linux Administration and Programming. I have set up and managed CI/CD implementation across the Development and Production environments. I write scripts to automate system updates and deployments, support and work closely with clients to resolve issues and ensure customer satisfaction. I seek opportunities where I can add value, learn and create effective results.

## Experience

### Interswitch Group

7 years

#### DevOps Engineer

May 2019 - Present (6 years 5 months)

Lagos, Nigeria

- Replication of current infrastructure to the Disaster Recovery Center.
